CNCF Introduction Linux Collaboration Summit 2016

Alexis Richardson, CNCF TOC chair
March 30th, 2016

LF Antitrust Policy Notice

CNCF meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

Examples of types of actions that are prohibited at CNCF meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at <http://www.linuxfoundation.org/antitrust-policy>. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Updegrove LLP, which provides legal counsel to the Linux Foundation.

Software is eating the world

Open Source is eating Software

Cloud is eating Open Source

What customers want

No more confusion

Guidance and clarity

A badge of quality

A common set of tools for cloud native apps

Shared through a modern, trusted commons

Cloud Native

Software and patterns for...

Container based

Microservices oriented

Programmable infrastructure

A commons under LF

What IETF is to Internet & email...

What Apache is to Big Data...

(Hadoop & ecosystem)

... CNCF is to Cloud Native

What lives in CNCF

IP:

- Open Source - running code

- Specifications for interoperability & patterns

Infra:

- eg. Intel cluster for large scale testing

Modern principles

“No kingmakers”

Competing approaches are OK

Emergent standards based on real world USE

“Github way”

Projects enjoy largely autonomous governance

TOC as facilitator: helps, enables, encourages

3 phase plan

We have an amazing TOC

<u>Company</u>	<u>Name</u>	<u>Email</u>
Apache Software Foundation	Camille Fournier	skamille@gmail.com
Cisco	Ken Owens	kenowens@cisco.com
CoreOS	Jonathan Boulle	jonathan.boulle@coreos.com
Docker	Solomon Hykes	solomon.hykes@docker.com
GoDaddy	Elissa Murphy	elissam@godaddy.com
Google	Brian Grant	briangrant@google.com
Joyent	Bryan Cantrill	bryan@joyent.com
Mesosphere	Benjamin Hindman	benh@mesosphere.io
Weaveworks	Alexis Richardson	alexis@weave.works

*Note: TOC meetings shall require a **quorum of two-thirds of the TOC total members to take a vote or make any decision**. If a TOC meeting fails to meet the quorum requirement, discussions may proceed, however there shall be no voting or decisions.*

Which projects?

High Quality & Velocity
Cloud Native
Foundation Affinity

Ok, no really, which projects?

Kubernetes accepted, now in incubation

But this is NOT a 'Kubernetes foundation'

We want lots more projects

Our doors are open - watch for announcements

What projects are we looking for?

Containers - microservices - programmable infra

CI/CD - Networking - Storage - Logging - Nodes -
Services - Monitoring - Visualization - **and more..**

Thank You
